

Terms of Service

Last updated: September 27, 2026

Vantum ("we", "us") operates the @vantum.tech and @vantum.bio accounts, which post automated summaries of technology and biotechnology news to YouTube, TikTok and Instagram, using the YouTube Data API (YouTube API Services), the TikTok Content Posting API and the Instagram Graph API.

What this app does

This application posts image and video content — generated from publicly reported news, licensed (CC0/public domain/CC BY) photography and footage, and company press-kit images — to the @vantum.tech and @vantum.bio accounts on a scheduled, automated basis. It does not post on behalf of any other user or account.

YouTube API Services

This app uses YouTube API Services. By using this app you agree to be bound by the [YouTube Terms of Service](#). See also the [Google Privacy Policy](#) and our [Privacy Policy](#).

Acceptable use

This app is used solely to publish Vantum's own editorial content. It is not offered as a public tool for third parties to post their own content.

Content accuracy

Vantum's content is derived from public news reporting and is fact-checked against its cited sources before publishing. Errors are corrected when identified.

Changes

These terms may be updated from time to time. Continued operation of the app constitutes acceptance of the current terms.

Contact

Questions about these terms can be sent to Vantum by direct message to [@vantum.tech](#) on Instagram.
